§ 659.17

(8) System safety program plan section. This section shall specify the minimum requirements to be contained in the rail transit agency's system safety program plan. The contents of the system safety plan are discussed in more detail in §659.19 of this part. This section shall also specify information to be included in the affected rail transit agency's system safety program plan relating to the hazard management process, including requirements for on-going communication and coordination relating to the identification, categorization, resolution, and reporting of hazards to the oversight agency. More details on the hazard management process are contained in §659.31 of this part. This section shall also describe the process and timeframe through which the oversight agency must receive, review, and approve the rail transit agency system safety program plan.

(9) System security plan section. This section shall specify the minimum requirements to be included in the rail transit agency's system security plan. More details about the system security plan are contained in §§659.21 through 659.23 of this part. This section shall also describe the process by which the oversight agency will review and approve the rail transit agency system security program plan. This section also shall identify how the state will prevent the system security plan from

§659.17 System safety program plan: general requirements.

(a) The oversight agency shall require the rail transit agency to develop and implement a written system safety program plan that complies with requirements in this part and the oversight agency's program standard.

(b) The oversight agency shall review and approve the rail transit agency

system safety program plan.

public disclosure.

(c) After approval, the oversight agency shall issue a formal letter of approval to the rail transit agency, including the checklist used to conduct the review.

§659.19 System safety program plan: contents.

The system safety plan shall include, at a minimum:

- (a) A policy statement signed by the agency's chief executive that endorses the safety program and describes the authority that establishes the system safety program plan.
- (b) A clear definition of the goals and objectives for the safety program and stated management responsibilities to ensure they are achieved.
- (c) An overview of the management structure of the rail transit agency, including:
 - (1) An organization chart;
- (2) A description of how the safety function is integrated into the rest of the rail transit organization; and
- (3) Clear identification of the lines of authority used by the rail transit agency to manage safety issues.
- (d) The process used to control changes to the system safety program plan, including:
- (1) Specifying an annual assessment of whether the system safety program plan should be updated; and
- (2) Required coordination with the oversight agency, including time-frames for submission, revision, and approval.
- (e) A description of the specific activities required to implement the system safety program, including:
- (1) Tasks to be performed by the rail transit safety function, by position and management accountability, specified in matrices and/or narrative format; and
- (2) Safety-related tasks to be performed by other rail transit departments, by position and management accountability, specified in matrices and/or narrative format.
- (f) A description of the process used by the rail transit agency to implement its hazard management program, including activities for:
 - (1) Hazard identification;
- (2) Hazard investigation, evaluation and analysis;
 - (3) Hazard control and elimination;
 - (4) Hazard tracking; and
- (5) Requirements for on-going reporting to the oversight agency relating to hazard management activities and status.
- (g) A description of the process used by the rail transit agency to ensure that safety concerns are addressed in
